 Fifth Gear

"Incredibly accurate"

"I wouldn't drive the morning after, neither would I let my family, without first checking ourselves with AlcoSense"

WIRED

The Daily Telegraph

“ 51% of drivers have unintentionally drunk driven the morning after ”

Drink Driving Survey 2009

“ 1 in 5 drink drive prosecutions happen the morning after ”

Dept of Transport 2007

“ 4 pints could be enough to take you over until 11am the next day ”

Drank between 9pm and midnight, processing one unit of alcohol per hour

alcoSense[®] ONE

Low cost, reliable and everyone can afford it. Entry level yes, but not baseline components. Using new technology like MEMS sensors the AlcoSense ONE beats the competition at a similar price point hands down. To do a breath test all you need to do is turn the unit on, wait for it to count down to zero, then blow until it beeps and shows your reading. Easy!

alcoSense[®] lite

Featuring an upgraded sensor and self cleaning the AlcoSense Lite gives greater accuracy and longevity removing contaminants that are blown in during use. AlcoSense™ Lite shows your level of intoxication in % BAC and alerts you when you are close to or over the drink drive limit.

alcoSense[®] ELITE

The multi-award winning AlcoSense Elite is our flagship breathalyser. Featuring air flow sensors you can't blow too hard or too soft which can affect readings, with auto self cleaning, sensor purge and algorithm technology AlcoSense Elite gives increased accuracy for an extended lifetime. Independently demonstrated by Channel 5's Fifth Gear as the most accurate alcohol tester in its price range, AlcoSense Elite is the UK's leading consumer breathalyser.

As recommended by Sir Stirling Moss

“The morning after I can't tell, but AlcoSense will”

Comparison Chart

	One	Lite	Elite
Accuracy	+/-0.2%BAC at the drink drive limit	+/-0.2%BAC at the drink drive limit	+/-0.02%BAC over reading range
Don't Drive Alert when close to over limit		✓	✓
Self Clean Program for longer life		✓	✓
Sensor purge after test for increased reliability			✓
Air Flow Sensor for more accurate results			✓
Reading Detail	1 decimal place	1 decimal place	2 decimal places
Unit of Measure	%BAC	%BAC	%BAC or µg/l
Max Reading	1.2%BAC	1.2%BAC	1.5%BAC
SRP	£24.99	£34.99	£59.99

Easy to Understand Results

In addition to showing you your level of intoxication, **AlcoSense Lite** and **Elite** will even warn you when you are close to or over the limit. If the law changes the alert level can be changed too!

Below the limit

Close to or over the limit
